Dedication

Dr. Arun K. Gupta

Founder, MIET
(1943 - 2021)

The MIET Strategic Plan (2024-2030) is dedicated to the memory of **Late Dr. Arun K. Gupta**, a visionary leader and the esteemed Chairman of the MIER Group of Institutions. As an ardent advocate of education and innovation, Dr. Gupta's mission was to create a world-class institution in Jammu and Kashmir that contributes meaningfully to society by empowering students with knowledge, skills, and values that transcend the classroom.

Under his leadership, MIET grew into a beacon of academic excellence and research innovation, setting benchmarks in education and industry collaboration since 1999. Dr. Gupta's emphasis on academic rigor, research-driven teaching, and his commitment to social responsibility are reflected in every aspect of MIET's functioning today.

A true educationist, Dr. Gupta believed in nurturing not only the intellectual capabilities of students but also their character and moral compass, ensuring they emerge as responsible global citizens. His legacy continues to inspire MIET's vision of excellence, diligence, and innovation, guiding the institution's journey toward becoming a leading force in higher education in the region and beyond.

This strategic plan is dedicated to his vision for the MIER group and his belief in the transformative power of education. We honour his contributions and remain committed to fulfilling his vision for MIET, by effectively implementing this strategic plan at MIET.

Message from the Chairperson, MIET

Dr. Renu Gupta

As the Chairperson of the Model Institute of Engineering and Technology (MIET), it is with immense pride that I present our **Strategic Plan for 2024-2030**. MIET has always stood for academic excellence, innovation, and the holistic development of our students. Over the years, we have nurtured countless young minds, equipping them with the knowledge, skills, and values to succeed in a rapidly changing world.

Our institution's journey is guided by a deep-rooted commitment to delivering quality education, fostering research, and serving our society. The strategic objectives laid out in this document reflect our vision to enhance the impact of our academic programs, drive technological advancements, and contribute to sustainable development. We are continuously aligning ourselves with global standards, expanding our research capabilities, and strengthening our industry partnerships, while remaining true to our core values of excellence, diligence and innovation.

This plan is the result of collective efforts and inputs from all important stakeholders. As we step into this new chapter of growth, I am confident that MIET will continue to scale new heights and set benchmarks in the education sector, not just regionally but nationally.

Our commitment to sustainability, inclusion, and community engagement underscores our pledge to contribute positively to society and the environment. We are not only focused on the academic achievements of our students but also on their development as responsible global citizens.

I would like to express my heartfelt gratitude to all those who have supported MIET's mission and vision over the years. Together, we will forge a bright and promising future for our institution, our students, and the broader community.

Message from the Director, MIET

Prof. Ankur Gupta

It gives me great pleasure to share the **MIET Strategic Plan for 2024-2030**, a comprehensive roadmap that will guide our institution towards continued sustenance & growth. At MIET, we are dedicated to creating an environment where academic excellence, research innovation, and technological advancement go hand in hand with societal impact.

This plan represents our collective ambition to strengthen our academic programs, expand our research horizons, and develop state-of-the-art infrastructure while maintaining a firm commitment to sustainability and community engagement. Over the next five years, we will work diligently to enhance the educational experiences of our students, elevate the capabilities of our faculty, and build partnerships that further our mission of producing graduates who are not only highly skilled but also socially responsible.

The future holds significant challenges, but also immense opportunities. The global educational landscape is evolving rapidly, and MIET is fully prepared to adapt, innovate, and lead. By focusing on key areas such as academic excellence, digital transformation, infrastructure development, and sustainability, we are confident that MIET will continue to make a significant impact locally, nationally, and globally.

Our success, however, is not solely measured by academic metrics, but by the lives we touch and the difference we make in society. MIET is committed to evolving into a University which becomes a focal point for driving transformation, growth and development in the Jammu and Kashmir region, which is much needed.

I extend my sincere thanks to our faculty, staff, students, alumni, and partners for their unwavering dedication and support. The present strategic plan encapsulates our shared vision, lofty ambitions and steely resolve to create a higher education institution, which evokes pride among all in the region.

As we embark on this strategic journey, I invite all our stakeholders to join hands with us in realizing our shared vision for a brighter future.

Section-1

EXECUTIVE SUMMARY

Executive Summary

The Model Institute of Engineering and Technology (MIET) envisions transforming into a world-class institution that delivers exceptional value to its students, industry partners, and society. This strategic plan for 2024-2030 outlines MIET's approach to navigating the rapidly changing landscape of higher education while addressing the disruptions in the global economy and job markets caused by technological advancements.

Over the next five years, MIET will focus on key areas, including enhancing academic excellence, advancing technological innovation, expanding infrastructure, and promoting sustainability. The institution will leverage its core values of Excellence, Diligence, and Innovation to maintain its leadership in higher education, ensuring that it not only adapts to future challenges but also contributes actively to shaping them.

MIET's strategic plan revolves around Core Values, Key Focus Areas, Transformational Strategies, Enabling Strategies, and the in-house developed SOUL (Strategy, Operations, Urgency and Leadership) framework for institutional transformation. SOUL further encompasses the Simplified Strategic Management Framework (SSMF) a 5-dimensional model outlining key focus areas and specific interventions leading to increasing maturity levels indicative of stakeholder delight, higher order outcomes and sustained brand strengthening. Detailed descriptions of these strategic elements are provided below.

Core Values

MIET's core values of “**Shreshtha**” (Excellence), “**Shram**” (Diligence), and “**Navinta**” (Innovation) form the foundation of its mission and strategic approach. Excellence drives the pursuit of high standards, Diligence emphasizes commitment and consistency of execution, and Innovation encourages forward-thinking solutions to evolving challenges. These values have remained unchanged over the 90 year existence of the MIER group and continue to inspire the next leg of transformative development of MIET and other group institutions.

Key Focus Areas

- **Enhance Student Achievement:** MIET aims to equip students with industry-relevant skills and knowledge, delivering a world-class educational experience. The focus will be on supporting students in gaining admissions to prestigious institutions and securing placements in top companies, thus aligning with the institution's commitment to excellence.
- **Build Networks and Partnerships:** Strategic partnerships with industry and like-minded institutions will be developed to create more training, research, and employment opportunities. Strengthening the alumni network will also be crucial for ongoing engagement and support.
- **Promote Local Innovation:** MIET will institutionalize a culture of innovation with a focus on addressing real-world problems, particularly those relevant to the local context. By enhancing research capabilities and encouraging student-driven innovation, MIET will position itself as a hub for inventive solutions.

- **Champion IT Adoption:** To drive operational efficiency and improve the student experience, MIET will advance its IT infrastructure and develop innovative in-house solutions. The institution will also foster a technologically advanced culture, supporting faculty and student research and innovation through targeted initiatives.

Transformational Strategies

MIET's approach to transformation includes four key strategies: Quality, Innovation, Blue Ocean, and Customer Experience.

- **Quality:** A commitment to high standards will be reinforced through continuous improvement, accreditation, and quality certifications, ensuring transparency and alignment with institutional goals.
- **Innovation:** MIET will promote a culture of innovation, encouraging student-driven projects and enhancing research capabilities to address real-world challenges.
- **Customer Experience:** Creating a world-class experience for students through engagement and satisfaction-focused initiatives will be a priority, ensuring MIET stands out as a leader in student services.
- **Blue Ocean:** By embracing non-traditional approaches and creating new opportunities, MIET will differentiate itself within the higher education sector.

Enabling Strategies

To support its transformational goals, MIET will focus on Professionalism, Performance, and Responsiveness:

- **Professionalism:** Sustained training and modern management techniques will foster professionalism across the institution.
- **Responsiveness:** MIET will cultivate an agile, stakeholder-focused environment, ensuring the institution remains adaptable and proactive in meeting the needs of its community.
- **Performance:** A data-driven approach will enhance organizational performance, aligning staff and student capabilities with strategic objectives.

Institutional Transformation

Around 10 years ago, the institutional leadership recognized large trends playing out in the Indian Higher Education space, namely, increased student expectations, regulatory changes necessitating urgent transformation, focus on accreditation and rankings, heightened competition and existential concerns for private affiliated colleges. Recognizing these trends, the institution decided to adopt a proactive approach focusing on “student value creation” and emerging as the de facto leader in the region. This

required a significant pivot for MIET, requiring a new culture of performance and excellence to be ingrained. The institutional leadership formulated a framework for this critical institutional transformation; SOUL (Strategy, Operations, Urgency and Leadership).

SOUL Framework

The **SOUL Framework** (Strategy, Operations, Urgency, Leadership) as depicted below in Figure 1 is a change and transformation management model developed by the leadership team at MIET to address the urgent need for transformation and ensuring long-term sustainability. The SOUL Framework is intended to provide a broad framework for MIET to navigate existing and emerging challenges, initiate meaningful change, and ensure sustainable growth.

Fig 1. SOUL Framework

Key Components of the SOUL Framework are

- **Strategy(S):** Strategy is central to the SOUL Framework, aligning the institution's vision and mission with its strategic goals. This component emphasizes creating a clear and adaptable plan that addresses both immediate and long-term challenges while integrating global best practices.
- **Operations(O):** Operational excellence is vital for enhancing stakeholder experience and institutional efficiency. This involves optimizing processes, leveraging technology, and building strong support systems to ensure seamless operations. Improving operational efficiency at MIET shall empower faculty and staff to deliver high-quality education and services.
- **Urgency(U):** A sense of urgency is crucial for driving timely change within MIET. By fostering a culture of urgency, MIET must accelerate decision-making and execution, achieve quick wins, and maintain momentum in its transformation journey. This component is essential for overcoming resistance to change and ensuring sustained progress.
- **Leadership(L):** Transformational leadership is required to guide MIET through change effectively. This involves developing strong leaders at all levels who can articulate a clear vision,

inspire stakeholders, and drive strategic initiatives. Leadership at MIET shall play a critical role in building a culture of continuous improvement and achieving long-term institutional goals. Mentoring young leaders and home-grown talent to be change agents will be a critical aspect of the MIET strategy.

The Simplified Strategic Management Framework (SSMF)

The Simplified Strategic Management Framework (SSMF) is a comprehensive model for implementing strategic management at MIET. It is designed to be action-oriented and easily assimilated at all levels in the organization. The SSMF depicted below in Figure 2 is structured around five key dimensions: Students, Faculty, Information Technology, Resources, and Outreach & Branding. Each dimension has four maturity levels, which shall help MIET track its progress and gauge the maturity of different strategic management initiatives.

Fig 2. Simplified Strategic Management Framework

Dimensions and Maturity Levels of SSMF

➤ *Students:*

- **Level 1: Engagement** - Focuses on building deep and meaningful engagement with students.

- **Level 2: Satisfaction** - Aims to enhance student satisfaction through feedback, mentoring, and improved services.
- **Level 3: Delight** - Seeks to exceed student expectations by providing world-class opportunities and experiences.
- **Level 4: High Performance and Achievement** - Emphasizes consistently attaining high performance and enhancing achievement levels.

➤ **Faculty**

- **Level 1: Development** - Involves faculty development initiatives such as training and mentoring.
- **Level 2: Engagement** - Focuses on binding faculty to their roles and enhancing their involvement in institutional processes.
- **Level 3: Delight** - Aims to exceed faculty expectations through rewards, recognition, and advanced opportunities.
- **Level 4: High Performance and Achievement** - Cultivates a high-performance culture with empowered and highly competent faculty.

➤ **Information Technology**

- **Level 1: Adoption** - Involves the basic implementation of IT tools and infrastructure.
- **Level 2: Integration** - Ensures deep integration of IT with institutional processes and operations.
- **Level 3: Driver** - IT begins to drive operational efficiencies and strategic decision-making.
- **Level 4: Enabler** - IT acts as a key enabler for achieving strategic objectives and outcomes.

➤ **Resources**

- **Level 1: Planning** - Focuses on understanding the financial health and planning for stabilization.
- **Level 2: Allocation** - Aligns resource allocation with strategic objectives and operational needs.
- **Level 3: Spend for Excellence** - Allocates funds strategically to achieve excellence in key areas.
- **Level 4: Generation and Surplus Management** - Manages reserves and surplus effectively while exploring new resource generation avenues.

➤ **Outreach and Branding**

- **Level 1: Internal Communication** - Emphasizes internal branding and stakeholder communication.
- **Level 2: External Engagement** - Focuses on engaging external stakeholders through various channels.

- **Level 3: Brand Amplification** - Strategically promotes the institution to increase visibility and engagement.
- **Level 4: Reputation Management** - Manages the institution's reputation through strategic initiatives like SEO, PR, and feedback management.

Building on the foundations of previous strategic plans, annual objectives, and the strategy document, MIET embarked on a collaborative journey to define its path for the next five years. A series of in-depth discussions were conducted, engaging stakeholders from various levels of the institution to ensure a comprehensive approach resulting in the **Strategic Planning Dossier (Appendix I)**. These conversations culminated in a strategic retreat where the core leadership group came together to contribute their insights and expertise. This collective effort allowed MIET to align its vision with actionable steps, laying the groundwork for a transformative strategy roadmap that addresses both current and future challenges.

The strategic plan has been designed to attain the most important strategic outcome for MIET, which is “to evolve into a Private University” over the next 5 years.

As a result of these discussions, the MIET Strategic Plan 2024-2030 emerged, focusing on five key objectives that will elevate the stature of the institution. These objectives target critical areas: academic and research excellence, technological innovation, infrastructure development, sustainability, and enhancing the holistic experience of students, faculty, and stakeholders. By centring on these priorities, MIET intends not only expand its impact but also help drive socio-economic progress in the region and contribute to national development. The five strategic objectives, along with their corresponding SSF dimensions and intended maturity levels to be achieved over the next five years, are outlined in Table 1.

Strategic Objectives	Corresponding SSF Dimensions	Intended Maturity Levels to be achieved by 2030
Enhancing Academic and Research Excellence	• Student • Faculty	Level 3
Advancing Technological Innovation and Digital Transformation	• Information Technology • Outreach and Branding	Level 4
Developing State-of-the-Art Infrastructure	• Resources • Outreach and Branding	Level 3
Enhancing Quality Assurance and Stakeholder Experience	• Student • Faculty • Outreach and Branding	Level 4
Promoting Sustainability and Social Responsibility	• Outreach and Branding	Level 3

Table 1: Strategic Focus Areas and Corresponding SSF Dimensions with Target Maturity Levels by 2030

A brief overview of each strategic objective is provided below, with detailed explanations available in the corresponding sections.

Enhancing Academic and Research Excellence

MIET is committed to providing high quality education at par with the best institutions in the country and focusing on developing research capabilities in emerging domains. By offering highly flexible academic programs with relevant specializations offering holistic development and life skills, MIET aims to prepare students for exciting global careers and success in their chosen domains.

- **Academic Programs:** MIET intends to offer programs in emerging fields such as AI/ML, Cybersecurity, Quantum Computing, Data Science, Industry 4.0, Electric Vehicles and other frontier technologies, with plans to introduce interdisciplinary & integrated programs. The institution also intends to introduce courses which are currently not offered within the region in the private sector such as Hotel Management & Catering Technology, Journalism & Mass Communication, M.Tech in all Engineering Programs, LLM (Hons.), and integrated programs which reflect the needs of the market/society. Finally, starting PhD programs in all disciplines will remain a priority area for MIET to truly transform into a research-driven institution.
- **Faculty Development:** MIET will implement a comprehensive Learning and Development (L&D) Plan for faculty training in emerging technologies, research methodologies, and innovative teaching practices. The intent is to significantly enhance the faculty's ability to deliver high-quality education through continuous development, mentoring and industry certifications.
- **Research Innovation:** Establish Centers of Excellence in high-impact areas like AI and Frontier Technologies.. Focus on industry-academic partnerships, driving innovation, and translating research into practical applications, intellectual property and startups.

Advancing Technological Innovation and Digital Transformation

MIET aims to create a digitally advanced ecosystem to support education, foster innovation, and enhance operational efficiency.

- **Digital Infrastructure:** Upgrade to 1 Gbps campus-wide internet and adopt a cloud-first strategy for enhanced data accessibility and security. Modernize digital infrastructure with a focus on seamless connectivity and operational efficiency.
- **Smart Classrooms and Labs:** Equip classrooms with advanced technologies, including smart boards and state-of-the-art computing facilities, to support emerging technologies and provide a hands-on learning experience. Make latest tools and technology stacks available for use by the stakeholders.
- **Automation and Operational Efficiency:** Invest in automating institutional processes to streamline operations and enhance stakeholder experience across various departments to drive operational efficiency. Be a leader in adopting new technologies, software tools to manage all aspects from admissions to student life-cycle management to alumni management.

Developing State-of-the-Art Infrastructure

MIET's infrastructure strategy aims to foster academic excellence, research, and holistic student development with a focus on sustainability.

- **Academic and Residential Facilities:** Develop new academic buildings, IT Park, hostels, and faculty housing to accommodate growth. Enhance learning spaces offer a modern infrastructure offering comfort, safety and convenience to all stakeholders.
- **Recreational Spaces:** Create modern amenities such as rooftop cafes, gyms, and sports complexes, along with a new cafeteria, cultural activity centre, and amphitheatre to promote well-being and develop an enriching campus culture.
- **Sustainability Initiatives:** Develop infrastructure which is energy efficient, ergonomically designed while offering comfort and convenience. The infrastructure should help enhance the productivity of the stakeholders.
- **Barrier-Free Environment:** Offer a barrier-free environment for the specially-abled including lifts, ramps, barrier-free toilets, resource/learning materials and supporting policies for the specially-abled.

Enhancing Quality Assurance and Stakeholder Experience

MIET prioritizes stakeholder satisfaction by creating a supportive campus environment that addresses the needs of students, faculty, staff, and external partners.

- **Consistent Quality Enhancement:** Achieve continuous quality improvement by adopting global best practices, processes, and systems across all institutional activities.
- **Excellence in Rankings and Accreditations:** Perform consistently in national and international rankings and accreditations, demonstrating excellence across all aspects of institutional performance.
- **Student Experience:** Improve the student experience through modern classrooms, expanded support services, learning and development initiatives, IT systems for seamless services, mental health resources, and comprehensive career counselling.
- **Faculty Development and Engagement:** Foster a culture of mentorship, collaboration, and continuous improvement among faculty, linking performance appraisals to research output and development goals.
- **Digital Engagement:** Develop platforms to improve communication, feedback, and performance tracking, ensuring responsiveness to stakeholder needs. Appoint a dedicated Experience Manager to manage interactions with stakeholders and improve satisfaction. Implement regular feedback loops and satisfaction surveys.

- **Alumni Engagement:** Strengthen connections through regular updates, reunions, and networking events. Showcase alumni success stories in branded communications.

Promoting Sustainability and Social Responsibility

MIET's objective is to align with the United Nations Sustainable Development Goals (UNSDGs) to foster a sustainable and socially responsible environment.

- **Clean Energy and Water Conservation:** Implement green practices including rainwater harvesting, ground-water recharge, Sewage Treatment Plants and utilize solar energy to meet atleast 50% of campus needs, besides promoting eco-friendly transportation with EVs within campus including provisioning Charging stations.
- **Gender Equality and Social Equity:** Increase female enrolment through scholarships and establish a centre for women's development to support female students and faculty.
- **Community Engagement:** Enhance community outreach programs aligned with UNSDGs, focusing on education access, gender equality, and social responsibility.
- **Equal-opportunity employer:** MIET intends to be an equal-opportunity employer focusing on providing employment and growth opportunities to prospective employees irrespective of their gender, religion, background, orientation and preferences. The MIET organizational culture intends to encourage and reward meritocracy and performance.

Section-2

ENHANCING ACADEMIC AND RESEARCH EXCELLENCE

Enhancing Academic & Research Excellence

Model Institute of Engineering and Technology (MIET) is committed to fostering a culture of **academic excellence and research innovation** that aligns with its strategic vision of becoming a world-class institution. This section outlines the key initiatives that will guide MIET over the next five years (2024-2030) in enhancing the quality of its academic programs and advancing its research capabilities.

Academic Programs

- **Blue Ocean Approach:** MIET aims to launch new programs which are a first in the region, retaining its pioneer status. These programs will align with international trends, national and regional requirements. Starting PhD programs in broad subject areas will remain a priority along with focusing on programs in hospitality management, media and journalism and masters programs in engineering. Interdisciplinary and innovative programs shall be subsequently launched upon attaining the University status, which is the stated strategic outcome for MIET.
- **Internationalization:** MIET will partner with foreign universities to enable international career paths for its students, contributing to internationalization efforts in the region.

Faculty Development and Learning Ecosystem

- **Faculty Upskilling:** MIET aims to transform its faculty into global thought leaders through continuous professional development in emerging and frontier technologies such as AI, Quantum Computing, Data Analytics, Cybersecurity, Industry 4.0, Renewable Energy and EVs. This will be achieved through partnerships with industry, world-class learning platforms, curated faculty development programs and industry certifications for individual faculty under a comprehensive Learning and Development plan.
- **Mentorship Programs:** MIET will implement faculty mentorship initiatives, pairing senior faculty with younger members to promote knowledge exchange and support research and teaching excellence.

Curriculum Innovation and Interdisciplinary Education

- **Curriculum Design:** MIET will revise its curriculum continuously to include interdisciplinary courses, specializations in emerging domains, industry-relevant curriculum and enhanced flexibility for students.
- **Centers of Excellence:** MIET plans to establish Centers of Excellence in emerging and frontier technologies such as EVs, Drone Technology, IoT, AI among others with industry collaboration. These centers will provide students with hands-on experience in state-of-the-art technologies, and deliver a modern curriculum to the students.

Research Infrastructure and Resources

- **Research Labs:** Investment in state-of-the-art research labs with modern tools and resources will provide the necessary infrastructure for advanced experimentation and data analysis. Upgrades to existing labs will be undertaken in a phased manner to ensure the research infrastructure remains relevant at all times.
- **Intellectual Property Support:** The establishment of an IPR Cell will assist faculty and students in securing patents and commercializing research, aiming to increase annual patent filings and bolster MIET's innovation leadership in the region.

Research and Innovation Outcomes

- **Research Publications:** MIET aims to increase the visibility and impact of its research through high-quality publications in international journals. Support for faculty attending global conferences will further promote MIET's research outputs on the world stage.
- **Partnerships and linkages:** MIET will strengthen partnership and linkages to secure research funding and demonstrate impact. Joint research initiatives will be encouraged to enhance the visibility of the institution at the national and international levels.
- **Innovation and Entrepreneurship:** MIET will dedicate resources to innovate consistently building innovative products, solutions and prototypes solving real-world problems. These will result in patents, commercial products, licensing of technology and potential startups.
- **Rewards and Incentives:** MIET will offer rewards and incentives to faculty members in attaining stated research objectives and championing the culture of research and innovation at MIET.

To implement the strategies laid out in this plan, the Learning and Development Plan and the Research, Development & Innovation Plan have been prepared. **(Appendix II and III)**

Section-3

TECHNOLOGICAL ADVANCEMENT AND DIGITAL TRANSFORMATION

Technological Advancement and Digital Transformation

MIET is committed to enhancing its digital infrastructure to support its strategic goals of becoming a world-class institution. The upcoming five years will focus on accelerating MIET's technology adoption through modernized infrastructure, implementation of emerging technologies, and creating a digital-first operational model. These efforts aim to elevate academic delivery, institutional efficiency, and foster innovation, making MIET a leader in technology adoption and advancement.

Digital Infrastructure Modernization

- **Upgrading Network Capabilities:** MIET will invest in high-speed internet, upgrading to 1 Gbps bandwidth to support data-intensive research and remote learning. High-density Wi-Fi networks will ensure seamless connectivity across academic buildings, residential areas, and public spaces. A redundant network architecture will minimize downtime, ensuring uninterrupted connectivity.
- **Cloud-First Strategy:** The adoption of a cloud-first strategy will enhance data management and scalability. Cloud platforms like AWS or Microsoft Azure will host institutional data and digital resources. Tools like Google Workspace and Microsoft 365 will facilitate real-time collaboration, while virtual labs will provide remote access to high-performance computing resources.

Enhancing Academic Delivery through Technology

- **Smart Classrooms:** MIET will transform its classrooms into smart learning environments equipped with interactive displays and AI-powered tools. Lecture capture systems will enable recording and streaming of lectures, creating a repository for review. AI tools will provide personalized feedback and support to students.
- **Learning Management System (LMS) Enhancement:** The LMS will be upgraded to offer a user-friendly interface and mobile access, supporting all academic activities. Integrated assessment tools will track student progress, providing analytics to help faculty address learning gaps effectively.
- **Virtual and Augmented Reality in Education:** MIET will incorporate VR and AR technologies for immersive learning where applicable.

Automation of Institutional Operations

- **Automation of Administrative Processes:** MIET aims to automate key administrative processes, including admissions, records management, and financial operations, reducing manual tasks and enhancing efficiency. An automated CRM system will streamline alumni management, while performance analytics will support data-driven decision-making.
- **Student Support and Engagement Tools:** AI-driven chatbots and virtual assistants will provide 24/7 support for student queries. MIET will also enhance its mental health services with online counselling and AI-based tools for early intervention.

Cybersecurity and Data Protection

- **Strengthening Cybersecurity Infrastructure:** MIET will adopt a comprehensive cybersecurity framework, including firewalls, intrusion detection systems, and secure access protocols to protect sensitive data. Regular security audits and compliance with data protection regulations will be conducted to maintain a secure digital environment.
- **Cybersecurity Education and Awareness:** Specialized cybersecurity courses and certifications will be offered in partnership with industry leaders. Awareness campaigns will educate the community on best practices for online safety and data privacy.

Sustainability through Digital Innovation

- **Green IT Initiatives:** MIET is committed to sustainability through energy-efficient data centers and virtualization technologies. A shift to paperless operations will further reduce the institution's carbon footprint.
- **Leveraging Digital Tools for Environmental Impact:** Smart energy management systems will track energy usage, optimizing consumption to reduce MIET's carbon footprint. IoT-enabled water conservation tools will monitor water usage and detect leaks, contributing to the institution's sustainability goals.

To implement the strategies outlined in this plan, the Digital Transformation Plan has been prepared (Appendix IV).

Section-4

DEVELOPING STATE-OF-THE-ART INFRASTRUCTURE

Developing State-of-the-Art Infrastructure

MIET is committed to expanding and modernizing its campus facilities to accommodate a growing student population, create a world-class learning environment and elevate stakeholder experience. The development plan encompasses academic, residential, and recreational facilities with a focus on institutional needs, functionality, aesthetics, safety, comfort, sustainability and barrier-free access.

Expansion of Academic Facilities

- ***IT Park and Academic Block:*** MIET proposes to construct an IT Park and Academic Blocks E and F, serving as a hub for teaching, research, and industry collaboration. Key features include:
 - ***Incubation Center:*** A space dedicated to fostering entrepreneurship and innovation, offering resources such as mentorship and seed funding.
 - ***Co-Working Spaces:*** Providing young startups from J&K with an environment to innovate and grow.
 - ***Data Centre:*** State-of-the-art computing facilities to support startups, innovation, and research across the region.
 - ***Centres of Excellence:*** Industry-partnered centers offering access to cutting-edge tools and frameworks to accelerate innovation and prototyping.
 - ***Convention Centre:*** A venue for hosting world-class events focused on technology, innovation, and entrepreneurship.

Development of Residential and Recreational Facilities

- ***Student Hostels and Faculty Housing:*** Over the next five years, MIET plans to expand its residential offerings by constructing student hostels and faculty housing. This initiative aims to enhance academic impact and institutional outcomes through community building.
- ***Recreational Spaces:*** MIET is committed to creating spaces that promote physical health, mental well-being, and a vibrant campus life. Planned facilities include an indoor sports center offering racquet sports, athletic track, gym, multi-purpose spaces for allied activities such as yoga, zumba etc. A full-fledged cricket stadium is also proposed.
- ***Cafeteria and Social Spaces:*** A new cafeteria with the capacity of 500 seats is intended to be provisioned. Additionally, rooftop cafes on new buildings are proposed to be created as inviting spaces where students and staff can relax, socialize, and enjoy a range of food options.

Campus Beautification and Branding

- **Landscaping and Green Spaces Development:** Transform the campus into a green, environmentally friendly space by planting native trees, shrubs, and themed gardens to promote biodiversity. Shaded pathways and outdoor seating areas integrated with rainwater harvesting will enhance sustainability and foster community interaction.
- **Art Installations and Sculptures:** Enrich campus culture and identity by collaborating with regional and national artists to create sculptures, murals, and other art installations that reflect MIET's values and vision.
- **Upgraded Interiors for Seminar Rooms and Central Meeting Spaces:** Modernize seminar and meeting spaces to facilitate effective learning and collaboration through ergonomic furniture, state-of-the-art audiovisual systems, improved lighting, and adaptable configurations for diverse events and meetings.
- **Secure and Aesthetic Gate Complex Construction:** Establish a visually appealing and secure main entrance to the campus, featuring security checkpoints, landscaping, welcoming signage, and reliable access control systems for enhanced campus safety.
- **Campus Branding and Signage Improvements:** Reinforce MIET's brand identity and improve campus navigation through the development and installation of consistent directional signage, building labels, and campus maps, creating a cohesive and user-friendly environment.

Smart Campus Initiatives

MIET is committed to transforming into a smart campus by focusing on the automation of key areas to enhance operational efficiency and overall campus experience. Key initiatives include:

- **Smart Metering:** Implementing efficient energy monitoring and management systems.
- **Surveillance System:** Enhancing campus security with advanced surveillance technologies.
- **Attendance Management System:** Streamlining the attendance process through automation for accuracy and convenience.
- **Campus Automation:** Integrating solutions to simplify and improve day-to-day campus operations.
- **Data-Driven Decision Making:** Utilizing data insights for strategic planning and optimal resource allocation.

To implement the strategies outlined in this plan, a comprehensive Infrastructure Development Plan has been prepared (**Appendix V**).

Section-5

ENHANCING QUALITY ASSURANCE AND STAKEHOLDER EXPERIENCE

Enhancing Quality Assurance and Stakeholder Experience

MIET's quality assurance framework emphasizes continuous improvement and stakeholder engagement, facilitated by the Internal Quality Assurance Cell (IQAC). The IQAC oversees quality enhancement activities to ensure that academic, administrative, and operational processes align with national and international standards.

Quality Assurance

- **Accreditation and Benchmarking:** MIET is committed to achieving and maintaining high-quality standards through national and international accreditations.
 - **NAAC and NBA Accreditation:** MIET will pursue top grades in NAAC and NBA accreditations, ensuring its programs meet the highest quality standards.
 - **International Accreditation:** Efforts will be made to secure international accreditations such as ABET and AACSB to enhance MIET's global reputation and attract collaborations.
- **Data-Driven Decision Making:** MIET will adopt a data-driven approach, utilizing analytics to guide decision-making and monitor performance.
 - **Key Performance Indicators (KPIs):** MIET will track KPIs related to academic performance, research output, student satisfaction, and faculty development to evaluate program effectiveness and drive strategic decisions.
 - **Continuous Monitoring and Improvement:** A system for ongoing data collection and analysis will be established to quickly address issues and implement necessary adjustments.
- **Enhancing Stakeholder Experience:** MIET aims to enhance the experiences of students, faculty, staff, alumni, and industry partners by fostering a supportive and engaging environment.
- **Student-Centred Learning Environment:** MIET is dedicated to creating a personalized and supportive learning environment for students.
 - **Personalized Learning Paths:** Adaptive learning technologies will tailor educational experiences to individual student needs, enhancing learning outcomes across various fields.
 - **Holistic Development Programs:** Programs including mentorship, internships, extracurricular activities, and soft skills training will ensure students are well-rounded and workforce ready.

- ***Student Support Services:*** Student well-being is a priority, with comprehensive support services to promote academic success and personal growth.
- ***Academic Support Centres:*** These centres will offer tutoring, peer mentoring, and academic counselling, providing resources to help students excel.
- ***Career Services and Placement Support:*** MIET will enhance career services with personalized counselling, resume workshops, and strengthened industry ties for better job placement.
- ***Mental Health and Wellness Programs:*** Expanded mental health services, including counselling and wellness workshops, will support students' emotional and mental well-being.
- ***Student Feedback Mechanisms:*** MIET values student feedback as a tool for continuous improvement.
 - ***Student Satisfaction Surveys:*** Annual surveys will gather insights on academic programs, faculty performance, and campus services, informing policy changes and enhancements.
- ***Faculty Experience and Professional Development:*** MIET is committed to fostering an environment that supports faculty development, collaboration, and recognition.
 - ***Faculty Development Programs:*** Continuous professional development will be prioritized to keep faculty at the forefront of their fields through the following:
 - ***Teaching Excellence Workshops:*** Regular workshops will cover innovative teaching methods, classroom management, and the integration of technology under the ambit of the Teaching-Learning Center.
 - ***Research and Grant Writing Support:*** MIET will assist faculty with grant writing, proposal development, and industry collaboration, helping secure research funding and produce impactful publications.
- ***Faculty Recognition and Incentive Programs:*** Recognizing faculty achievements is key to maintaining an engaged workforce and would be ensured through following initiatives:
 - ***Annual Faculty Awards:*** Awards in categories such as teaching excellence and research innovation will celebrate outstanding contributions.
 - ***Incentives for Research and Publications:*** Financial incentives and reduced teaching loads will be offered to faculty who excel in research and secure external funding.

- **Staff Experience and Support:** MIET supports its non-academic staff through professional development opportunities and recognition programs.
 - **Skill Development Programs:** Tailored training programs will help administrative, technical, and support staff develop essential skills.
 - **Cross-Departmental Training:** Opportunities for cross-departmental training will enhance staff versatility and institutional efficiency.
- **Employee Engagement and Recognition:** To foster a positive work environment, MIET will implement engagement initiatives that promote collaboration and work-life balance.
 - **Employee Recognition Programs:** Regular recognition events will highlight the contributions of staff members across the institution.
 - **Work-Life Balance Initiatives:** Flexible work hours, wellness programs, and recreational facilities will help staff manage their responsibilities effectively.
- **Alumni Engagement and Industry Partnerships:** MIET is committed to strengthening ties with alumni and industry partners to enhance academic programs, research, and job placement.
 - **Alumni Mentorship Programs:** Connecting current students with successful alumni mentors will provide guidance on career development and networking.
- **Continuous Quality Improvement:** MIET will employ a Plan-Do-Check-Act (PDCA) approach to ensure ongoing quality improvement.
 - **Quality Improvement Cycles:** The PDCA cycle will guide improvements in academic and administrative processes, supported by stakeholder feedback and quality improvement committees.
 - **Stakeholder Feedback and Involvement:** Regular feedback sessions and quality improvement committees will ensure that stakeholders are actively engaged in MIET's continuous improvement efforts.

To implement the strategies laid out in this plan, a comprehensive IQAC Plan and the Brand Enhancement Plan have been prepared. **(Appendix VI and VII).**

Section-6

PROMOTING SUSTAINABILITY AND SOCIAL RESPONSIBILITY

Promoting Sustainability and Social Responsibility

The Model Institute of Engineering and Technology (MIET) is dedicated to aligning its initiatives with the United Nations Sustainable Development Goals (UNSDGs) as part of its 2024-2030 strategic plan. This commitment aims to integrate sustainability, social equity, and community engagement across MIET's operations, academic programs, and research, ensuring the institution contributes positively to global challenges like climate change, inequality, and sustainable development.

Sustainability in Campus Operations

MIET integrates sustainable practices in campus operations, targeting energy usage, waste management, water conservation, and transportation, aligning with UNSDGs such as Affordable and Clean Energy (Goal 7), Responsible Consumption and Production (Goal 12), and Climate Action (Goal 13).

➤ *Energy Efficiency and Clean Energy Initiatives*

- **Solar Energy Deployment:** MIET plans to meet 75% of its energy needs through solar power by 2030, installing solar panels across academic buildings and open spaces. On-campus solar farms will enhance energy generation, complemented by battery storage systems to manage energy use during peak times.
- **Energy Efficiency Upgrades:** Smart energy management systems will optimize energy consumption based on real-time data, while retrofitting existing buildings with LED lighting, improved insulation, and energy-efficient appliances will further reduce energy use.

➤ *Sustainable Water Management*

- **Rainwater Harvesting:** Systems will collect and store rainwater for irrigation and other non-potable uses, reducing the need for municipal water and supporting groundwater recharge. Greywater recycling will also be implemented to further decrease reliance on fresh water.
- **Water-Efficient Landscaping:** MIET will adopt landscaping practices that use native and drought-tolerant plants, alongside smart irrigation systems to minimize water waste and enhance campus biodiversity.

➤ *Waste Management and Circular Economy Practices*

- **Zero-Waste Initiatives:** MIET will promote sustainable consumption, reduce single-use materials, and encourage digital workflows to minimize paper use. Comprehensive recycling and composting programs will be established to divert waste from landfills and recycle organic materials for use in campus gardens.

E-Waste Management: Regular e-waste collection drives will ensure responsible disposal of electronics, with a focus on sustainable procurement and extending the lifecycle of devices through maintenance and repairs.

Sustainable Development Education

MIET aims to integrate sustainability across its curriculum, ensuring students gain a comprehensive understanding of sustainable development principles, aligning with Quality Education (Goal 4) and Climate Action (Goal 13).

➤ ***Sustainability in the Curriculum***

- ***Interdisciplinary Courses:*** MIET will offer courses on climate change, renewable energy, circular economy, and sustainable urban planning, promoting cross-disciplinary collaboration on sustainability projects.
- ***Project-Based Learning:*** Students will engage in capstone projects focused on real-world sustainability challenges, such as designing renewable energy systems or developing waste reduction strategies.

➤ ***Sustainability Certifications and Training***

- ***Sustainability Leadership Programs:*** MIET will offer certifications in sustainable business practices, environmental policy, and green technology, enhancing students' employability in sustainability-focused roles.
- ***Faculty and Staff Development:*** Workshops and training will help faculty integrate sustainability into their courses and research, while staff will receive training in sustainable campus management practices.

Research for Sustainable Solutions

MIET will position itself as a leader in sustainability research, focusing on developing solutions for environmental and social challenges, supporting Industry, Innovation, and Infrastructure (Goal 9) and Climate Action (Goal 13).

➤ ***Establishing Research Centers***

- ***Center for Renewable Energy Research:*** This center will focus on improving solar energy technologies and collaborating with industry to develop scalable renewable energy solutions.
- ***Center for Sustainable Urban Development:*** Research will include smart city technologies, sustainable infrastructure, and policy analysis to support sustainable urban growth.

➤ *Student and Faculty Research Opportunities*

- *Sustainability Research Fellowships:* Grants and fellowships will support research in renewable energy, sustainable agriculture, and climate adaptation, fostering innovation in sustainability.

Social Equity and Inclusion

MIET is committed to reducing inequalities and promoting diversity, supporting Gender Equality (Goal 5) and Reduced Inequalities (Goal 10).

➤ *Promoting Gender Equality*

- *Scholarships for Women in STEM:* Financial aid and scholarships will encourage more women to pursue degrees in STEM fields.
- *Women's Leadership and Mentorship Programs:* Programs will support female students and faculty, offering mentorship and leadership development opportunities.

➤ *Reducing Socioeconomic Barriers to Education*

- *Need-Based Scholarships:* MIET will expand its scholarships to support students from low-income families, ensuring access to quality education.
- *Support for First-Generation Students:* Specialized services, including academic and peer mentoring, will help first-generation students navigate the academic environment.

Community Engagement and Partnerships

MIET will engage with local communities and form partnerships that support social and economic development, aligning with Sustainable Cities and Communities (Goal 11) and Partnerships for the Goals (Goal 17).

➤ *Local Community Development Initiatives*

- *Education Outreach Programs:* MIET will partner with local schools to provide STEM education, inspiring young students to pursue careers in science and technology.
- *Health and Wellness Initiatives:* Collaborations with healthcare providers will offer mobile health clinics to underserved areas, providing basic healthcare and education.

➤ *Partnerships with NGOs and Government Agencies*

- ➤ *Collaborative Social Impact Projects:* MIET will work with NGOs on projects addressing local challenges, such as poverty and environmental degradation, promoting skill development and economic independence.

➤ *Advocacy and Policy Engagement*

- ➤ *Sustainability Policy Development:* MIET will engage in advocacy to promote sustainability and social equity in higher education, contributing to broader societal impact.

To implement the strategies outlined in this plan, a comprehensive Sustainability Development Plan has been prepared. **(Appendix VIII).**

Section-7

IMPLEMENTATION, MONITORING, AND GOVERNANCE

Implementation, Monitoring, and Governance

MIET will use a phased approach to implement its 2024-2030 Strategic Plan, with an emphasis on regular monitoring by an executive committee. This section outlines the steps required to achieve MIET's goals, including tracking key performance indicators (KPIs) related to academic performance, research outputs, infrastructure development, and stakeholder satisfaction.

Phased Implementation Overview

MIET's implementation plan is divided into five phases, each targeting specific strategic initiatives:

- **Phase 1 (2024):** Focuses on planning and initial rollout, including obtaining approvals from the Governing Body, communicating internally and setting up the structure to execute the relevant plans, allocating funding, and initiating pilot projects.
- **Phase 2 (2025-2026):** Expand academic and research initiatives, such as launching new academic programs, enhancing research centers, and advancing digital transformation projects.
- **Phase 3 (2026-2027):** Begins infrastructure and sustainability development, including upgrades to campus facilities and the implementation of green energy projects.
- **Phase 4 (2027-2028):** Focuses on full implementation and partnership development, scaling industry and government partnerships, and deepening stakeholder engagement.
- **Phase 5 (2028-2030):** Involves reviewing and evaluating strategic outcomes, ensuring the long-term sustainability of MIET's programs, leading into the strategic planning framework over the next 5 year cycle.

Governance Structure

A well-defined governance structure will oversee the execution of the strategic plan, ensuring accountability and effective resource management.

Governance Bodies

- **Governing Body:** Approves all strategic plans and initiatives, including allocation of resources, people and overseeing the effective implementation of the strategic plans.
- **Planning and Academic Affairs Committee (P&A):** Provides overall decision-making authority, and guides strategy execution. Tracks progress through continuous monitoring, performance reviews, and reporting on KPIs and milestones.
- **Process Owners:** Responsible for the operational management of specific strategic projects in academics, research, infrastructure, stakeholder engagement and sustainability.

Governance Framework

The process owners report to the Planning and Academic Affairs (P&A) Committee which then reports to the Governing Body. The Director of the institution shall head the P&A committee and report on the overall progress to the Governing Body. The Director shall nominate personnel to the different committees as per institutional requirements. Additional staff positions to support the effective implementation of the strategic plan shall be created as required from time to time.

Monitoring and Evaluation Plan (M&E)

The M&E Plan will track the progress and impact of MIET's strategic initiatives, using KPIs and regular assessments.

Key Benchmarks

The objective and key benchmarks are given below in the table 2.

Objective	Key Benchmarks
Enhancing Academic and Research Excellence	1. Introduction of New Innovative Programs 2. Consistently Strong Enrolments 3. Strong Students Outcomes a. Graduation Rates b. Placement Rates 4. Qualitative and Quantitative Research Outcomes a. Grants and Consultancy b. Patents/IPR c. Startups/Commercialization of Technology
Advancing Technological Innovation and Digital Infrastructure	1. Extent of Digitalization and Automation 2. External Audits and Benchmarking 3. Resource allocation to Tech and Digital
Developing State-of-the-Art Infrastructure	1. Stakeholder Feedback 2. Audits and Benchmarks 3. 2X infrastructure in next 5 years 4. 100% Barrier-free and enabling environment
Enhancing Quality Assurance and Stakeholder Experience	1. NIRF Ranking in next 5 years 2. Region-leading NAAC, NBA, ABET accreditations to be attained. 3. Consistently high scores in Faculty, Student and Stakeholder Surveys 4. Independent audits

Table 2 : Objectives & Key Benchmarks.

Table 2 >>>

Objective	Key Benchmarks
Promoting Sustainability and Social Impact	1. Independent Audits 2. UNSDG Dashboard – track progress on each goal. 3. Stakeholder perception

Detailed metrics/KPIs will be developed as part of individual action plans to attain these strategic objectives.

Monitoring Schedule

Monitoring activities will include quarterly progress reviews, annual review of execution efficiency and progress along strategic objectives, a mid-plan evaluation at the end of the third year, and a final evaluation at the end of Year 5. These reviews will be conducted by the relevant review committees comprising key personnel and leadership teams.

Timeline and Milestones

The strategic plan implementation will follow a structured timeline with key milestones:

➤ Phase 1: Planning and Initial Rollout (2024)

- Establish governance structure, secure funding, and initiate pilot projects.

➤ Phase 2: Academic and Research Expansion (2025-2026)

- Develop new programs, expand faculty training, and enhance research capabilities.

➤ Phase 3: Infrastructure and Sustainability Development (2026-2028)

- Commence green energy projects and infrastructure upgrades.

➤ Phase 4: Full Implementation and Partnership Development (2027-2028)

- Expand industry and government partnerships, and intensify stakeholder engagement.

➤ Phase 5: Review and Sustainability Planning (2027-2030)

- Conduct comprehensive reviews and ensure the sustainability of implemented programs.

Risk Management

Effective risk management is critical to the success of MIET's strategic plan. The following risks and mitigation strategies have been identified in the table 3:

Risk	Likelihood	Impact	Mitigation Strategy
Delays in Infrastructure Projects	Medium	High	Engage contractors early and conduct regular checks
Funding Shortfalls	Medium	High	Diversify funding sources and establish reserve funds
Low Stakeholder Engagement	Low	Medium	Enhance communication and offer participation incentives
Regulatory Changes Affecting Accreditation	Medium	Medium	Stay updated with regulations and develop proactive management approaches
Technology Adoption Challenges	Medium	High	Provide training and phase technology rollouts

Table 3 : Risk Management & Mitigation Strategy

Resource Allocation and Budgeting

The Finance Committee will detail the financial, human, and material resources required to achieve MIET's strategic objectives. This includes initial investments and ongoing capital allocation.

Appendix-I

STRATEGY PLANNING DOSSIER

MIET Strategy Planning Dossier

➤ *What?*

- Ideate, debate, and come up with a shared strategic roadmap for MIET for the period 2024-2030.

➤ *Why?*

- Set the strategic framework to enable MIET to further strengthen its brand and attain higher order outcomes.

➤ *When?*

- Saturday, 27th July 2024

➤ *Where?*

- Radisson Blu, Jammu (Board Room)

➤ *MIET: Current Status*

- J&Ks only Autonomous Technical Institution
- Approximately 2300 students and 110 faculty, 130 staff.
- 5 B.Tech Programs, 3 PG (MTech, MBA, MCA), 3 UG (BBA, B.Com, BCA), 2 Law (BBA.LLB and LLB) – Total 13 programs
- NAAC “A” Grade Accredited, CSE is NBA Accredited

➤ *Vision*

- *To create a world-class institution*

➤ *Mission*

- *To deliver exceptional value to students, industry, and society*

➤ *Current Strategy Plan (Attached)*

➤ *SWOT Analysis*

Strengths	Opportunities
• Autonomous Status • Financially Viable • Good Regional Brand • Thought Leadership • Agility and Responsiveness	• Private/Deemed University Status • Hostel/Residential Campus • NIRF Top 100 • Program Expansion • 5000+ students
Weaknesses	Threats
• Limited Research and its quality • Limited Innovation • Program-level Leadership • Number of Professors/Associate Professors • Pipeline of high-quality faculty • Academic rigor and weak academic processes • Faculty Training and monitoring	• Interference by Govt./University • New Emergent Players • No State Private University Act in J&K • Decline in Focus and Inability to Execute Plans • Leadership Vacuum • Inability to scale-up • Resource Constraints • Inability to deliver higher-order outcomes

Table 4 : Strengths, Weakness, Opportunities & Threats (SWOT) Analysis

➤ *Background Reading Material*

- *NAAC New Framework - [Attached](#)*
- *SOUL Searching Paper - [Attached](#)*
- *Simplified Strategic Management Framework- [Attached](#)*

➤ *Open Questions?*

I. **NEW PROGRAMS**

1. Which Programs should MIET Foray in over the next year, 3 years, 5 years?

2. Which master's programs should be prioritized?
3. What fee structures can MIET command sustainably and how can we enhance the value perception for the students?

➤ ***Guiding Principles: Blue Ocean (First in J&K), Innovation (Naveenta), Premiumisation (ability to charge fees around Rs. 1 lakh per annum and beyond)***

II. BRAND, LINKAGES, OUTREACH, MARKETING

4. How can MIET become the number one choice of students in the J&K region?
5. How can we attract the best faculty talent in the region?
6. Is our current marketing enough to reinforce or elevate our brand? What else do we need to do?
7. How can we extend the outreach of MIET to the society at large?
8. What areas can MIET focus on which are critical in the regional context?
9. What marquee events and activities can MIET initiate to strengthen our brand? (cultural/literary fests)
10. Who are the prominent people who can be tapped as Professors-of-Practice, Adjunct Faculty to strengthen MIET's image of academic excellence?
11. How can MIET take the lead in UN SDGs in the region? Which areas can MIET focus on?
12. What industry alliances will make sense for MIET over the next five years?
13. How can we successfully deliver consultancy, raise funds from philanthropists, Corporate CSR and donations from society.

➤ ***Guiding Principles: Innovation (Naveenta), Global best-practices***

III. EXECUTION, CAPABILITY ENHANCEMENT and PERFORMANCE MANAGEMENT

14. How can research, innovation be broad-based?
15. How can we institutionalize and sustain a culture of high-performance?
16. Is our current administrative setup capable of supporting our expansion?

17. How can we mobilize our faculty, staff, and students towards producing outcomes leading to NIRF top 100 ranking?
18. Do we need to hire external consultants, or do we have all the answers to navigate the future?
19. What kind of Learning and Development plan does MIET need to ensure that all faculty members are prepared for the future and deliver emerging/frontier technologies?
20. How can we significantly enhance in-class academic delivery quality and learning experience?

➤ **Guiding Principles: Excellence, Diligence, Innovation (Core Values)**

IV. STAKEHOLDER EXPERIENCE

21. How does our infrastructure need to scale up?
22. What are the absolute necessary and desirable elements from an infrastructure perspective?
23. How can MIET enhance student/faculty experience?
24. What additional services can be provided to enhance stakeholder experience?

➤ **Guiding Principles: Blue Ocean, Innovation, Champion IT-adoption**

V. FUTURE-ORIENTATION

25. Is our vision and mission relevant and suitable for the future?
26. Is the current strategic plan OK or needs to be revised?
27. Are we on the right track?

➤ **Guiding Principles: Introspection, Environmental Inputs, Global/National Trends, Envisioning the Future**

Strategy Retreat Schedule (11:00 am to 5:00 pm)		
Opening Remarks	1. Overview of the retreat's objectives and expected outcomes. 2. Presentation of Current Status and SWOT Analysis. Quick Walkthrough of the dossier contents to ensure everyone is on the same page.	15 Minutes
Session 1	New Programs	1 Hour
Tea Break – 30 minutes		

Table 5 : Strategy Retreat Schedule

Table 5 >>>

Session 2	Brand, Linkages, Outreach and Marketing	1 Hour
Lunch Break – 45 minutes		
Session 3	Execution, Capability Enhancement and Performance Management	1 Hour
Tea Break – 30 minutes		
Session 4	Stakeholder Experience	1 Hour
Session 5	Future-Orientation	30 Minutes
Session 6	Consolidation and Closure	15 Minutes

➤ *Reference Material*

Appendix-II

LEARNING AND DEVELOPMENT PLAN

Learning and Development Plan for Up-Skilling Faculty on Emerging Technologies

Objective

To transform into a Learning Organization.

To up-skill all faculty members on emerging technologies to ensure they remain at the forefront of their fields and can effectively educate students on cutting-edge topics.

Key Areas and Elements

➤ *Identify Emerging and Frontier Technologies*

➤ *Provide Access to Learning Platforms*

- Coursera, Infosys SpringBoard, Nasscom Future Skills Prime.

➤ *Build Linkages with Training Service Providers*

- NVIDIA, AWS, Cisco, Palo Alto Networks, UiPath Academies for domain specific courses and certifications and training Companies empanelled with T&P Cell for hands-on training.

➤ *Setup Comprehensive Learning and Development Function*

- i. *Assign People:* Identify people who can lead and drive the L&D function
- ii. *Curate Learning Paths:* On Coursera and for departments/individuals aligned with identified emerging technologies
- iii. *Individual Development Plans and Mentoring:* Develop IDPs in PI-360 to track learning outcomes. 1x1 meetings with faculty members to review progress and help them in using the acquired knowledge to produce papers, apply for grants and produce IPR.
- iv. *Group/Team Learning:* Facilitate group/peer learning for faculty undertaking similar learning paths to boost success rates and confidence.
- v. *L&D Calendar:* Prepare L&D plan/calendar with detailed tracking of execution, deliverables and timelines.
- vi. *L&D Spaces and Environments:* Setup Teaching-Learning Centre with dedicated space to learn.

➤ *Rewards and Incentives*

- Central HRD and Learning Champions to ensure success of others.
- Identify, recognize and empower learning champions who embody the spirit of learning organization.
- Create incentive plan for fast learners and learning champions.

Emerging and Frontier technologies

➤ *Computer Science*

- Artificial Intelligence (AI) & Machine Learning (ML)
- Blockchain
- Cyber-security
- Cloud Computing/Fog/Edge
- Robotic Process Automation (RPA)
- Data Analytics/Data Science
- Internet of Things (IoT)

➤ *Electronics and Electrical Engineering*

- AI & ML
- Cyber-security
- IoT
- Mechatronics
- Electric Vehicles (EVs)
- Industry 4.0
- Blockchain
- Drone Technology
- Smart Cities/Smart Grids

➤ *Civil Engineering*

- Remote Sensing and GIS
- Modelling and Simulation
- Data Analytics
- AI & ML
- Industry 4.0
- Cloud Computing

➤ *Management*

- Business Modelling and Simulation
- Data Analytics
- AI & ML
- Blockchain
- Cyber-security
- Industry 4.0

➤ *Law*

- Cyber-security
- AI & ML
- Blockchain
- Data Privacy and Protection
- Digital Forensics
- Arbitration and Mediation

Implementation Plan

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Identify Learning Platforms	Select platforms like Coursera, Infosys SpringBoard, Nasscom Future Skills Prime	Human Resources Department (HRD)	Phase 1: 3 Months Research and Selection	Review available platforms for variety and relevance to different departments' needs
Build Linkages with Training Service Providers	Collaborate with NVIDIA, AWS, Cisco, Palo Alto Networks, UiPath Academies, and empanelled training companies.	Leadership Team, HRD	Phase 1: 6 Months Build Partnerships	Focus on domain-specific courses and hands-on training
Curate Learning Paths	Create department-specific and individual learning paths on Coursera	HRD, Department Heads	Phase 1: 6 Months Define Paths	Include optional and mandatory courses for faculty, aligned with research and development goals
Individual Development Plans (IDPs)	Develop IDPs in PI-360 to track learning outcomes	HRD	Phase 1: 6 Months Setup in PI-360	Enable continuous tracking of progress for personalized learning
Mentoring	1x1 faculty mentoring sessions to guide progress, assist in publications, grant applications, IPR	Senior Faculty, HRD	Phase 2: Ongoing	Personalized mentoring to focus on real-world applications of knowledge
Group/Team Learning	Facilitate peer learning for faculty with similar learning paths	HRD, Department Heads	Phase 2: 6 Months Implement	Encourage collaboration and sharing of learning experiences for mutual benefit
L&D Calendar	Develop a comprehensive L&D plan/calendar with tracking deliverables	HRD	Phase 1: 3 Months Create Initial Calendar	Include timelines and milestones for each phase of the L&D plan
L&D Spaces and Environments	Setup a Teaching-Learning Centre with dedicated learning spaces	Facilities Team, HRD	Phase 2: 1 Year Setup	Provide faculty with conducive learning environments

Table 7 : Implementation Plan

Table 7 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Track Progress	Conduct half-yearly reviews, monthly progress reports, and performance appraisals	HRD	Phase 2: Ongoing	Use IDPs and progress metrics to review and adjust learning outcomes
Learning Success Managers	Appoint a central HRD and Learning Champions to monitor and ensure learning success	HRD	Phase 1: 3-6 Months Identify Key Individuals	Provide support and guidance to learners, helping them stay on track
Identify Learning Champions	Recognize and empower faculty members who exemplify continuous learning	HRD	Phase 2: 1 Year Recognition Programs	Celebrate high achievers and promote a culture of continuous learning
Incentivize and Celebrate Learning	Develop incentive plans for fast learners and learning champions	HRD	Phase 3: 2 Years Incentive Programs	Create rewards for learning milestones and innovation contributions

Remarks

- The L&D plan is critical to build the knowledge base and skills needed to stay relevant and competitive over the next 5 years. It is central to attainment of academic and research excellence.
- Utilize MOOCs and online platforms like Coursera, edX, and Udacity for initial training phases with curated learning paths for faculty members.
- Setup KRAs around attainment of learning paths and measured in hours of learning per faculty per year.
- Groom domain leaders/champions based on demonstrated outcomes and excellence in a particular domain.
- Incentivize the learning/skilling champions and nominate for high-end learning experiences at industry and top institutions, besides attending international conferences.

This plan aims to systematically up-skill faculty members, ensuring they are equipped with the knowledge and skills required to educate students on the latest technologies and trends.

Appendix-III

RESEARCH, DEVELOPMENT & INNOVATION PLAN

Research and Development Plan

Objective

To foster a robust research and innovation ecosystem within the institution by enhancing capabilities, infrastructure, and support systems.

Key Areas and Elements

1. *Setting up a Center for AI, Quantum Computing, and Emerging Technologies*
 - Establish a dedicated center to explore cutting-edge research in AI, quantum computing, and other emerging technologies, leading to interdisciplinary research, collaborative projects, innovation and startups.
2. *Revise Research Budget*
 - Increase resource allocation to accelerate attainment of higher order research outcomes with well-defined KRAs for faculty and departments.
3. *Prepare L&D Plans for Individual Faculty for Domain Expertise*
 - Tailor development plans for faculty to enhance their domain-specific research skills.
4. *Setup IPR Center to Facilitate Local Patent Filing*
 - Establish a center to support faculty and students in securing intellectual property rights.
5. *Project Grants*
 - Prioritize securing external funding through grants and collaborative projects.
6. *Prioritize UNSDG Goals*
 - Align research initiatives with the United Nations Sustainable Development Goals (UNSDGs) to demonstrate institutional commitment to sustainability and social causes.
7. *Startups from Campus*
 - Encourage entrepreneurship and innovation among students and faculty leading to startups being incubated from campus.

Implementation Plan:

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Operationalise PhD program in CSE to begin with	Start PhD by 2025 August	Leadership Team	August 2025	Proposal awaiting approval from JU
Center for AI, Quantum Computing, and Emerging Technologies	State-of-the-art labs, interdisciplinary research teams, collaborative projects	Research & Innovation Committee (RIC)	◆ Phase 1 (1 Year): Establishment and Infrastructure Setup ◆ Phase 2 (2 Years): Recruitment and Research Projects ◆ Phase 3 (3-4 Years): Expansion and Industry Integration	Focus on cutting-edge research and innovation
Revise Research Incentives	Revised incentive policies, increased funding for publications and patents	HR Department	◆ Phase 1 (6 Months): Policy Review and Proposal ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Regular Review	Encouraging high-quality research outputs
In-House Workshops for Faculty	Workshops on research methodologies, grant writing, and publication strategies	Research & Innovation Committee (RIC)	◆ Phase 1 (6 Months): Curriculum Development ◆ Phase 2 (1 Year): Execution of Workshops ◆ Phase 3 (Ongoing): New Topics	Enhancing faculty research capabilities
L&D Plans for Faculty Domain Expertise	Personalized L&D plans, mentorship programs	HRD	◆ Phase 1 (1 Year): Assessment and Plan Development ◆ Phase 2 (2 Years): Implementation and Tracking ◆ Phase 3 (Ongoing): Evaluation	Covered under L&D Plan

Table 8 : Implementation Plan

Table 8 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
IPR Center	IPR policies, patent filing support, legal assistance	Research & Innovation Committee (RIC)	◆ Phase 1 (1 Year): Establishment and Staffing ◆ Phase 2 (2 Years): Awareness and Training programs ◆ Phase 3 (Ongoing): Support and Monitoring	Facilitating intellectual property protection
Tinkering Lab	Project execution space	Research & Innovation Committee (RIC)	◆ Phase 1 (1 year): phase out old machines and shops and bring in new workspaces. Spruce up old workshop feel into a modern workspace. ◆ Phase 2 (2 years): State-of-the-art fabrication facilities	Re-model and reimagine the workshop – IoT/Sensors, 3-D Printers, CNC Lathe and Cutting Machines, PCB Fabrication, Electronics and Electrical Workbenches, Consumables, Tool Racks
Increase SEED Grant Funding	Increased SEED grant budget, transparent application process	Research & Innovation Committee (RIC)	◆ Phase 1 (6 Months): Budget Reallocation ◆ Phase 2 (1 Year): Grant Distribution ◆ Phase 3 Ongoing): Monitoring	Boosting initial funding for innovative projects
Focus on Grants and Projects for Funding	Grant applications, industry partnerships, project funding	Research & Innovation Committee (RIC)	◆ Phase 1 (6 Months): Identify Funding Opportunities ◆ Phase 2 (1 Year): Application and Proposals ◆ Phase 3 (Ongoing): Project Management	Securing external funding
Prioritize UNSDG Goals	UNSDG-aligned projects, social impact reports	Research & Innovation Committee (RIC)	◆ Phase 1 (6 Months): Goal Identification ◆ Phase 2 (1 Year): Initiate Projects ◆ Phase 3 (Ongoing): Monitoring	Aligning research with sustainable development goals
Incubator for Campus Startups	Incubation space, mentorship, seed funding	Research & Innovation Committee (RIC)	◆ Phase 1 (1 Year): Setup and Resources ◆ Phase 2 (2 Years): Support Services ◆ Phase 3 (Ongoing): Expansion	Encouraging entrepreneurship and innovation

Table 8 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
KRAs and Tracking for Research and Innovation	KRAs, performance tracking tools	Research & Innovation Committee (RIC)	◆ Phase 1 (6 Months): KRA Development ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Evaluation	Establishing clear goals and accountability, HoDs accountable for departmental research, weekly research touch base and tracking, Appraisals linked to research outcomes.

Remarks:

- Plan to emerge as a leader in R&D, Innovation, IPR and startups in the region.
- Engage with external experts and industry partners to ensure the relevance and impact of research initiatives.
- Regularly review the plan to incorporate new trends and technologies.
- Foster a collaborative and innovative research culture within the institution.

This R&D plan aims to build a strong foundation for research excellence, innovation, and entrepreneurship, positioning the institution as a leader in cutting-edge technologies and sustainable development.

Appendix-IV

DIGITAL TRANSFORMATION PLAN

IT/ICT Plan for MIET

Objectives

- **Enhance Digital Infrastructure:** Upgrade and modernize IT infrastructure to support cutting-edge technologies and ensure seamless operations.
- **Promote Innovation and Efficiency:** Leverage advanced technologies to enhance productivity, streamline operations, and foster innovation.

Key Areas and Elements

- **Resources:** Ensure that the latest and most modern technology is adopted, assimilated and effectively utilized in delivering the best IT experience to the stakeholders. Continuously invest in enhancing IT/ICT resources, including hardware and software.
- **People:** Recruit quality people and continuously upskill them to ensure IT/ICT leadership.
- **Services:** Deliver the best IT/ICT services to the stakeholders through adoption of modern IT frameworks and tools, supported by responsive processes and people.
- **Maintenance and Upkeep:** Ensure consistent RoI from the IT/ICT resources through continuous maintenance and upkeep.
- **Leadership:** Demonstrate thought leadership followed by agility in action to stay ahead of the technology curve.
- **Automation:** Aim for high-level of automation, personalization and enhanced operational efficiency.
- **Security and Risk Management:** Ensure adequate security provisions are in place along with risk mitigation mechanisms to ensure business continuity and resilience.
- **Sustainability:** Dispose E-waste with responsibility through accredited e-waste agencies.

Implementation Plan

Key Area	Deliverables	Owner	Timelines	Justification/Comments
High-Speed Internet Connectivity	Achieve 1 Gbps internet connectivity	IT Department	◆ Phase 1 (6 Months): Vendor Selection ◆ Phase 2 (1 Year): Infrastructure Setup ◆ Phase 3 (2 - 3 Years): Full Operationalization	Enhance internet speed and reliability

Table 9 : Implementation Plan

Table 9 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
State -of-the-Art Computing Facilities	Setup advanced computing facilities for AI and emerging technologies	IT Department	◆ Phase 1 (6 Months): Planning and Procurement ◆ Phase 2 (1 Year): Facility Setup ◆ Phase 3 (2 Years): Full Operationalization	Support research and education in cutting-edge domains
Smart Classrooms	Equip classrooms with smart boards and audio-video systems	Facilities and IT Department	◆ Phase 1 (1 Year): Planning and Procurement ◆ Phase 2 (2 Years): Installation ◆ Phase 3 (3 Years): Full Deployment	Modernize teaching and learning environments
Modern Communication Backbone	Implement 100% Fibre network, VPNs, VoIP, Wi-Fi, Digital Display Systems based on Cloud	IT Department	◆ Phase 1 (1 Year): Infrastructure Planning ◆ Phase 2 (2 Years): Installation and Setup ◆ Phase 3 (3 Years): Full Operationalization	Enhance communication and network infrastructure
Cloud-First Strategy	Adopt cloud-based solutions for email and data management	IT Department	◆ Phase 1 (6 Months): Vendor Evaluation ◆ Phase 2 (1 Year): Migration Planning ◆ Phase 3 (1.5 Years): Full Migration	Enhance data accessibility and management
Automation of Institutional Operations	Implement IT systems for automation of all operations from admissions to alumni management	Leadership Team and IT Department	◆ Phase 1 (6 Months): Requirement Analysis ◆ Phase 2 (1 Year): System Selection and Setup ◆ Phase 3 (2 Years): Full Implementation	Streamline administrative processes
Modern Lab Infrastructure	Equip labs with modern computing infrastructure and access to latest software platforms	IT Department and Academic Departments	◆ Phase 1 (6 Months): Needs Assessment ◆ Phase 2 (1 Year): Infrastructure Setup ◆ Phase 3 (2 Years): Full Deployment	Enhance practical learning and research capabilities

Table 9 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Open -Source Adoption	Champion open-source tools and platforms where feasible	IT Department and Academic Departments	◆ Phase 1 (6 Months): Evaluation of Open-Source Options ◆ Phase 2 (1 Year): Training and Integration ◆ Phase 3 (Ongoing): Continuous Adoption	Reduce costs and promote collaborative innovation
Advanced Security Provisions	Implement advanced security measures for data protection and seamless operations	IT Department	◆ Phase 1 (6 Months): Security Assessment ◆ Phase 2 (1 Year): Security ◆ Implementation Phase 3 (Ongoing): Monitoring and Upgrades	Protect institutional data and systems
Bring -Your -Own -Device (BYOD) Policy	Develop policies around BYOD for enhanced productivity of stakeholders	HRD and IT Department	◆ Phase 1 (6 Months): Policy Development ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Monitoring and Review	Flexibility and productivity for staff and students
Disposal and Deprecation	Dispose E-waste through registered e-waste recycling agencies and promote sustainable practices related to E-Waste	IT Department	◆ Phase 1 (Ongoing): Policy Development and Execution	Promote Sustainability
Continuous Assessment and Upgradation	Conduct IT Audits and Reviews to ensure seamless operations, maintenance and upgradation Conduct IT Risk Assessment from time to time	IT Department	◆ Phase 1 (Ongoing): Policy Development and Execution	Safety First Approach

Remarks

- IT/ICT adoption has been a key differentiator for MIET in the region and the institution should endeavour to maintain the perception.
- Investment in IT/ICT/processes/people should continue at a healthy pace to sustain the momentum.

This IT/ICT Plan aims to modernize the technological infrastructure of MIET, enhance digital capabilities, and ensure a secure, efficient, and innovative environment for all stakeholders. The plan aligns with the institution's goals of fostering a digitally advanced and supportive educational ecosystem.

Appendix-V

INFRASTRUCTURE DEVELOPMENT PLAN

Infrastructure, Services, and Amenities Plan

Objective

- To enhance the infrastructure, services, and amenities at the institution, ensuring a holistic and enriching environment for students, faculty, and staff.
- To offer the best infrastructure in the region to enhance stakeholder experience.

Key Areas and Elements

➤ *Physical Infrastructure*

- **Master Plan:** Prepare a master plan for construction and development for the next 10 years.
- **Construction of IT Park and Academic Building:** Develop a state-of-the-art IT Park and Academic Building spread over 1.5 lakh sq. ft, focused on providing cutting-edge facilities for learning, research, and collaboration over the next 3 years.
- **Separate Library Building:** Construct a dedicated library building with ample study spaces and resources.
- **Student Hostels and Faculty Housing:** Construct Student Hostels and Faculty Housing in the next 5 years.
- **Furniture Upgrade:** Modernize classroom and office furniture with ergonomic designs and integrated charger points.
- **Gate Complex:** Construct a secure and aesthetically pleasing entrance gate complex for improved security and appearance.
- **Pantry Area for Faculty Members:** Create a comfortable pantry area equipped with basic amenities for faculty.
- **Art Installations:** Commission art installations to enhance the aesthetic appeal of the campus.
- **Landscaping and campus development:** Beautify the campus
- **Interiors Upgrade:** Upgraded seminar rooms in each department, Central Meeting Room + General Area, Campus Branding.

➤ *Digital/Supporting Infrastructure*

- *High-Speed WiFi:* Ensure campus-wide access with speeds suitable for academic and administrative needs.
- *Utilities Quality:* Upgrade existing infrastructure to provide reliable electricity, water, and internet services.

➤ *Student and Faculty Amenities*

- *New Cafeteria/Rooftop Cafes:* Develop modern dining areas with diverse food options and comfortable seating.
- *Sporatorium (Gym/Indoor Sports Facilities):* Build a state-of-the-art gym and indoor sports complex for fitness and recreation.
- *Swimming Pool:* Construct a swimming pool for recreational and sports activities.
- *Cricket Ground - Stadium:* Develop a cricket ground with seating facilities for hosting matches and events.
- *Cultural Activity Centre:* Establish a centre dedicated to cultural activities, performances, and events.
- *Amphitheatre:* Build an open-air amphitheatre for cultural performances and gatherings.

➤ *Miscellaneous/Support Services*

- *Parking:* Provision ample parking spaces for vehicles of faculty and students as per prevailing standards.
- *TUC Shops/Market:* Set up shops and a market area for students and staff to access essential items conveniently.
- *Sustainable development:* **Use renewable energy to the extent possible and aspire for attainment of sustainable development goals**
- *Upliftment of Admin Office and New Trained Administrative Staff:* Renovate administrative offices and train staff for better service delivery.
- *Upliftment of Reception Area:* Modernize the reception area for a welcoming and professional ambiance.
- *Hostels:* Upgrade existing hostels and construct new ones to accommodate the growing student population.

- **Guest Houses:** Develop guest houses for visiting faculty, guests, and parents.
- **Shuttle Service:** Provide shuttle services for easy transportation within and around the campus.
- **Battery Cars:** Introduce battery-powered cars for eco-friendly on-campus transport.
- **Ambulance:** Ensure the availability of an ambulance for medical emergencies.
- **Medical Centre:** Establish a fully equipped medical centre for healthcare services.
- **Convocation for Students:** Organize an annual convocation ceremony to celebrate student graduation.

➤ **Accessibility and Inclusivity**

- **Lifts and Ramps:** Install lifts and ramps across campus buildings to ensure accessibility for all.
- **Washrooms for Differently Abled:** Provide accessible washrooms equipped for differently abled individuals.
- **Girls Common Room:** Set up a common room for female students for rest and relaxation.
- **Health Insurance:** Provide health insurance coverage for all staff, ensuring access to medical care.

Implementation Plan:

Key Area	Deliverables	Owner	Timelines	Justification/ Comments
Physical Infrastructure	Master Plan, IT Park & Academic Building, Student Hostels and Faculty Housing, Furniture Upgrade, Gate Complex, Parking, Pantries in buildings, Art Installations, Landscaping and Beautification, Interior upgrade.	Leadership Team	◆ Phase 1: 1 Year Design and Planning ◆ Phase 2: 2 Years Construction ◆ Phase 3: 3 Years Completion	◆ IT Park and Academic Building, Seminar Rooms, ◆ IT Park and Academic Building, Gate Complex, Interiors, Student Hostels on Lease, Landscaping ◆ IT Park and Academic Building, Interiors

Table 10 : Implementation Plan

Table 10 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Digital Infrastructure	Wi-Fi upgrade, Utility enhancements	IT/Facilities Department	◆ Phase 1: 6-12 months	◆ Ongoing
Student and Faculty Amenities	Cafeteria, Gym, Pool, Stadium, Cultural Centre, Amphitheatre, Sporatorium.	Leadership Team	◆ Phase 1: 1 Year Feasibility Studies ◆ Phase 2: 2 Years Construction ◆ Phase 3: 3-4 Years - Opening	◆ Cafeteria ◆ Amphitheatre ◆ Sporatorium, Cultural Center
Support Services	Market, Water Bodies, Solar Power, Admin, Guest Houses, Shuttle Service, Medical Centre, Convocation	Facilities/IT Department	◆ Phase 1: 1 Year Infrastructure Planning ◆ Phase 2: 2 Years Setup and Installation ◆ Phase 3: 3-4 Years Operational	◆ Admin upgrade, Medical Center Upgrade, ◆ Solar Power expansion, Battery operated shuttles. ◆ Guest House.
Accessibility and Inclusivity	Lifts, Ramps, Accessible Washrooms, Girls Common Room	Leadership Team/Facilities Department	◆ Phase 1: 6 Months Accessibility Audit ◆ Phase 2: 1 Year Construction ◆ Phase 3: 2 Years Accessibility Services	◆ Lift Block B, Washrooms ◆ Lift Block C, Girls Common Room, Washrooms ◆ Lift Block A
Academic and Support Facilities	Library Building, Health Insurance, Stores	Leadership Team	◆ Phase 1: 1 Year Design and Planning ◆ Phase 2: 2 Years Implementation ◆ Phase 3: 5 Years Operational	◆ Health Insurance ◆ Central Stores ◆ Library Building

Remarks

- Prepare detailed resource mobilization roadmap for IT Park and Academic Block over next 3 years.
- Prioritize projects based on immediate needs and available resources.

- Hire good interior designers who can undertake projects on turnkey basis and delivery high quality outcomes.
- Engage with stakeholders, including faculty, students, and external partners, to ensure that the plan meets the community's needs.
- Regularly review and adjust the plan based on progress and feedback.

This comprehensive plan aims to significantly enhance the campus infrastructure, services, and amenities, fostering an environment that supports the academic, physical, and emotional well-being of all community members.

Appendix-VI

IQAC PLAN

Internal Quality Assurance Plan

Objectives

- **Consistent Quality Enhancement:** Achieve continuous quality improvement by adopting global best practices, processes, and systems across all institutional activities.
- **Excellence in Rankings and Accreditations:** Perform consistently in national and international rankings and accreditations, demonstrating excellence across all aspects of institutional performance.

Key Areas and Elements

- **Campus Experience:** Provide the best campus experience to all stakeholders in terms of safety, comfort and learning environment.
- **Sub-Staff Training:** Improve competencies of sub-staff for improved stakeholder experience and service delivery.
- **Workplace Safety:** Ensure workplace safety across all operational areas.
- **Feedback:** Collect, analyse, take action and close – present feedback in AC/GB for closure.
- **External Peer Team:** Constitute an external peer team for institutional audit and receiving expert inputs for continuous improvement.
- **Management Review Meetings:** Regular meetings with leadership team for review and inputs.
- **IQAC Reports in AC/GB:** To table all IQAC activities and reports in Academic Council and Governing Body.
- **Audits:** Conduct audits such as Green audits, IT audits, Academic and Administrative Audits etc. for continuous quality improvement and process compliance.
- **Faculty Trainings:** Continuous faculty competency and capability enhancement – covered in detail in L&D plan.
- **Student Trainings:** Continuous value-delivery and capability enhancement in key skills.
- **Faculty Mentoring:** Coaching and performance/impact enhancement with a 1x1 mentoring by Director.
- **Alumni Mentoring:** Successful alumni to mentor current students as an enrichment program for enhancing student achievement.

- **Championing PI-360:** Evangelize PI-360 and use data analytics to drive key decision making at the institution level.
- **Mission NAAC:** Attain high maturity level in the revised NAAC framework.
- **Strategy Retreats and Planning:** Conduct strategy retreats leading to high-quality plans across all critical areas from a 3 year perspective.

Implementation Plan

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Campus Experience	◆ Cleanliness review, waste segregation into coloured dustbins, checklists for staff, student services and amenities, False Ceilings, Power supply improvement, washrooms upgrading ◆ Waste disposal, Staff + Student Committee ◆ Feedback and action taken reports	IQAC/ IT/Facilities Department	◆ Phase 1 (6 Months): Plan and implement ◆ Phase 2 (1 Year): Execution ◆ Phase 3 (Ongoing): Regular reviews	Continuous monitoring and feedback collection
Sub-Staff Training	◆ Training on workplace behavior, process training and compliance, recognition and rewards ◆ Uniforms for peons, security, and conservancy staff ◆ Feedback and action taken reports	IQAC/HRD	◆ Phase 1 (6 Months): Identify Needs ◆ Phase 2 (1 Year): Training Sessions ◆ Phase 3 (Ongoing): Regular Updates	Focus on skill development and workplace improvement
Workplace Safety	◆ Fire safety training, fire extinguishers maintenance, safety certificates, emergency drills ◆ Medical facilities, water filter servicing ◆ Floor-wise safety champions	IQAC/ Facilities Department	◆ Phase 1 (6 Months): Safety Audit ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Monitoring and Review	Ensure a safe working environment
Feedback Analysis	◆ Collect feedback from all stakeholders, action taken reports, YoY analysis ◆ Communicate back to stakeholders ◆ Maintain reports for last 5 years	IQAC/HRD	◆ Phase 1 (6 Months): Data Collection ◆ Phase 2 (1 Year): Analysis and Reporting ◆ Phase 3 (Ongoing): Continuous Improvement	Enhance quality through consistent feedback mechanisms

Table 11 : Implementation Plan

Table 11 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
IQAC External Peer Team	◆ Constitute team, prepare for visit, conduct visit, prepare report ◆ Action taken report, table in Academic Council/GB	IQAC	◆ Phase 1 (6 Months): Team Formation ◆ Phase 2 (1 Year): Visit and Reporting ◆ Phase 3 (Ongoing): Follow-up Actions	Ensure continuous improvement through external reviews
Management Review Meetings	◆ Set agenda, invite senior leadership, present reports, implement inputs	IQAC	◆ Phase 1 (3 Months): Agenda Setting ◆ Phase 2 (Ongoing): Meetings and Reviews	Engage leadership in quality assurance processes
IQAC Reports in AC/GB	◆ Comprehensive report based on KRAs, present highlights	IQAC	◆ Phase 1 (6 Months): Report Preparation ◆ Phase 2 (Ongoing): Regular Presentations	Ensure accountability and transparency
Audits	◆ Academic audits, green/energy audits, well-defined calendar, reports Table in AC/GB	IQAC	◆ Phase 1 (1 Year): Calendar and Planning ◆ Phase 2 (Ongoing): Conduct Audits	Comprehensive auditing to ensure compliance
Faculty Training	◆ Internal/external training calendars, measure avg. hours of training per faculty, learning paths in Coursera, focus on industry certifications, new employee orientation. ◆ Budget for FDPs (Summer/Winter Schools)	HRD/IQAC	◆ Phase 1 (6 Months): Training Needs Analysis ◆ Phase 2 (1 Year): Training Execution ◆ Phase 3 (Ongoing): Monitoring and Reports	Continuous faculty development
Student Training	◆ Induction/orientation, bridge programs, professional training, student support services including mental health helplines and counsellor availability ◆ Career counselling services, International Admissions Facilitation support,	T&P	◆ Phase 1 (6 Months): Curriculum Development + Training Delivery Plan ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Support and Tracking	Focus on holistic student development
Faculty Mentoring	◆ Mentoring program, track process and measure outcomes, publish reports	IQAC/HRD	◆ Phase 1 (6 Months): Program Setup ◆ Phase 2 (1 Year): Mentoring Sessions ◆ Phase 3 (Ongoing): Evaluation	Support for new faculty members

Table 11 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Alumni Mentoring	- Identify top students, track and ensure completion, gather feedback - Publish report	Alumni Relations Cell	- Phase 1 (6 Months): Identification - Phase 2 (1 Year): Mentoring Sessions - Phase 3 (Ongoing): Reporting	Leverage alumni for mentoring current students
Championing PI-360	- Align events with criteria, update data monthly, review NAAC/NBA data quarterly - Track KRAs on monthly basis, ensure indices are exceeded	IQAC Department Heads	- Phase 1 (3 Months): Process Setup - Phase 2 (Ongoing): Data Tracking and Review	Improve processes and institutional metrics
Mission NAAC	- Ensure everyone champions one criterion, standardize processes, simplify workflow - Shared understanding of quality standards, compliance	Leadership Team/ IQAC and All Faculty	- Phase 1 (6 Months): Role Assignment - Phase 2 (Ongoing): Implementation	Commitment to achieving NAAC accreditation with high maturity rating
Strategy Retreat and Planning	- Ensure, institutional strategy is reviewed, revised and updated to reflect changing scenario. - Effective implementation and execution on stated plans	- IQAC and Leadership Team - IQAC, Assigned Owners and Leadership Team	- Phase 1 (6 Months): Retreat and Planning - Phase 2 (Ongoing): Quality of Execution	- Strategy Refresh and plans for 3-years to be created for various critical aspects - Ensure implementation of all stated plans and attainment of objectives.

Remarks:

- Maintain pioneer status in the region in volunteering for accreditation, audits and quality improvement programs.
- Energize the IQAC function at MIET to deliver outstanding value to all stakeholders and ensure institutional alignment with the strategic plan and objectives.

- Demonstrate diligence, relentlessness and resilience to guide the institution forward on all fronts.

This plan is designed to foster a culture of continuous quality improvement and excellence, ensuring that the institution not only meets but exceeds standards set by national and international accreditation bodies

Appendix-VII

BRAND ENHANCEMENT PLAN

Brand Enhancement Plan for MIET

Objectives

- **Strengthen MIET's Brand Identity:** Enhance the institution's reputation and visibility through strategic initiatives and outreach activities.
- **Deepen Stakeholder Engagement:** Build strong relationships with alumni, students, faculty, parents, and the broader community.
- **Expand Regional and Global Reach:** Position MIET as a leading institution through participation in rankings, thought leadership, and regional outreach.

Key Areas and Elements

- **Student Success:** Students are the centre of the universe for MIET and their success is critical to automatically amplify brand “MIET”.
- **Stakeholder Delight:** Maintaining cordial relations with all stakeholders, evincing genuine interest in their success and being agile and responsive to their needs is critical for MIET.
- **Support:** Extending support, providing resources and ensuring 24x7 access to critical services shall be the key.
- **Communication:** Open, honest and authentic communication should be ensured with easy access to the leadership team for all stakeholders.
- **Leadership:** Conform to the highest ethical and moral standards, leading by example and practising servant leadership with the highest standards of governance is expected.
- **Community Engagement:** Engage effectively with the broader community, show enthusiasm, build credibility and demonstrate results through initiatives.

Implementation Plan

Key Area	Deliverables	Owner	Timelines	Justification/ Comments
Alumni Engagement	◆ Strengthen alumni connect through regular updates, reunions, and networking events ◆ Branded communication showcasing alumni success stories	Alumni Relations Cell	◆ Phase 1 (6 Months): Develop Alumni Portal ◆ Phase 2 (1 Year): Organize Annual Alumni Meet ◆ Phase 3 (Ongoing): Regular Communication	Build a strong alumni network for support and advocacy

Table 12 : Implementation Plan

Table 12 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Stakeholder Experience Management	◆ Appoint a dedicated Experience Manager to manage interactions with students, parents, and other stakeholders ◆ Regular feedback loops and satisfaction surveys	Administration/HRD	◆ Phase 1 (6 Months): Recruit Experience Manager ◆ Phase 2 (1 Year): Implement Feedback System ◆ Phase 3 (Ongoing): Continuous Improvement	Improve satisfaction and loyalty among key stakeholders
Skilling and Lifelong Learning	◆ Offer skilling programs with industry partners in emerging areas (EVs, Drones, Factory Automation etc.) ◆ Offer Certificate programs and PG Diplomas in emerging areas for working professionals	Create a new Centre for Skill Development and Lifelong Learning/Leadership Team	◆ Phase 1 (Conceptualization and Planning - 1 year) ◆ Phase 2 (Pilot Launch in select domains) ◆ Phase 3 (Ongoing – Multiple Launches and Rollouts)	Demonstrate Thought Leadership and help build advanced skills and knowledge to contribute to regional development.
Community and Outreach Programs	◆ Organize marquee events at MIET (conclaves, hackathons, forums) ◆ Host summer training programs for school students on emerging technologies ◆ Senior Citizen Welfare and Community Outreach Programs	NSS, IQAC	◆ Phase 1 (6 Months): Event Planning ◆ Phase 2 (1 Year): First Set of Events ◆ Phase 3 (Ongoing): Quarterly Events	Enhance visibility and engagement with the community
School and Student Engagement	◆ Go to schools for direct engagement and awareness campaigns ◆ Organize open houses and engagement programs ◆ CBSE School Teacher Training in AI/ML, Emerging Technologies	Admissions Office	◆ Phase 1 (6 Months): Identify Key Schools ◆ Phase 2 (1 Year): Conduct Engagement Programs ◆ Phase 3 (Ongoing): Continuous Outreach	Increase awareness and attract potential students
Marketing and Public Relations	◆ Develop a monthly calendar of PR activities ◆ Organize mega activities every quarter to keep MIET in the public eye ◆ Branding of MIET's success stories across platforms	Leadership Team	◆ Phase 1 (3 Months): Calendar Setup ◆ Phase 2 (1 Year): Execute PR Activities ◆ Phase 3 (Ongoing): Monitor Impact	Consistent public engagement and brand reinforcement

Table 12 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
Thought Leadership and Policy Advocacy	◆ Publish white papers and engage in policy advocacy ◆ Organize and participate in panel discussions and external forums	Leadership Team	◆ Phase 1 (6 Months): Identify Key Areas for Advocacy ◆ Phase 2 (1 Year): Publish Papers and Participate ◆ Phase 3 (Ongoing): Continuous Engagement	Position MIET as a thought leader in education and policy
International Ranking and Accreditations	◆ Participate in rankings such as QS and Times Higher Education ◆ Focus on green initiatives and UNSDG ◆ Explore ABET, AACSB accreditation frameworks	IQAC	◆ Phase 1 (6 Months): Prepare for Submissions ◆ Phase 2 (1 Year): Execute Initiatives ◆ Phase 3 (2-3 Years): Operationalize Centers	Boost MIET's national and international reputation
Scholarships and Financial Support	◆ Launch a scholarship test in the name of the founder ◆ Establish tie-ups with NBFCs for education loans	Leadership Team	◆ Phase 1 (6 Months): Design Scholarship Program ◆ Phase 2 (1 Year): Partner with Financial Institutions ◆ Phase 3 (Ongoing): Monitor and Adjust	Attract and support talented students from diverse backgrounds
Digital and Social Media Engagement	◆ Launch podcasts and YouTube channels to reach a broader audience ◆ Engage social media influencers for brand promotion ◆ Participate and celebrate all relevant days/events on social media	Social Media Team	◆ Phase 1 (3 Months): Content Planning ◆ Phase 2 (6 Months): Launch Channels and Campaigns ◆ Phase 3 (Ongoing): Continuous Engagement	Increase MIET's digital footprint and engage with a global audience
Professor of Practice and Industry Linkages	◆ Introduce Professor of Practice roles, including professionals like IAS Officers ◆ Tie-ups with local hotels/companies for internships and training ◆ Create a calendar of activities to maintain brand visibility	HRD and Administration	◆ Phase 1 (6 Months): Identify and Recruit ◆ Phase 2 (1 Year): Establish Partnerships ◆ Phase 3 (Ongoing): Monitor and Review ◆ Phase 2 (Ongoing): Regular Monitoring	Enhance the practical learning experience for students

Remarks

- The private higher education sector in J&K has not enjoyed a favourable perception among the broader community. MIET has been able to carve a name for itself by delivering good value and attaining “Autonomous Status”.
- There is a significant opportunity to strengthen the brand further owing to lack of competition currently, offering an opportunity to pull ahead.
- “Brand Building” will be crucial for MIET to attain the status of a State Private University in the region.

This Brand Enhancement Plan for MIET outlines a comprehensive approach to strengthening the institution's brand identity through strategic initiatives in alumni engagement, stakeholder experience management, quality of education, outreach, marketing, thought leadership and demonstrated impact.

Appendix-VIII

SUSTAINABILITY DEVELOPMENT PLAN

Sustainability Development Plan

Objectives

➤ **Sustainable Development:** Contribute to achieving the United Nations Sustainable Development Goals (UNSDGs) by implementing initiatives aligned with each goal.

Community and Environmental Well-being: Enhance the quality of life for the MIET community and promote environmental sustainability.

Key Areas and Elements

Commitment: MIET needs to demonstrate commitment and leadership in aligning with sustainability goals and making their attainment a strategic objective.

Resources: Adequate resources need to be committed to ensuring that the institution can show the desired outcomes along all sustainability parameters.

Leadership: There is an opportunity to take leadership position in the region by planning and executing innovative projects in sustainability.

Partnerships: MIET needs to partner with external organizations and develop capacity to undertake projects in areas which are non-core to MIET.

Implementation Plan

Key Area	Deliverables	Owner	Timelines	Justification/ Comments
SDG 3: Good Health and Well-being	◆ Create an open gym at MIET ◆ Integrate fitness as a key criterion for student development ◆ Mental Health Support. ◆ Faculty Health Insurance ◆ Improved Medical Facilities	IQAC/HRD/ Facilities Department/ Sports Committee	◆ Phase 1 (6 Months): Plan and Design ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (Ongoing): Regular Fitness Programs	Promote physical fitness and well-being

Table 13 : Implementation Plan

Table 13 >>>

Key Area	Deliverables	Owner	Timelines	Justification/ Comments
SDG 4: Quality Education	◆ L&D Plans ◆ R&D Plans ◆ TLC ◆ Student Support ◆ Encourage students from underprivileged backgrounds through scholarships and endowments	Director/ Academic Department Heads	◆ Phase 1 (6 Months): Identify Beneficiaries ◆ Phase 2 (1 Year): Scholarship Disbursement ◆ Phase 3 (Ongoing): Monitor and Support Students	Promote inclusive and equitable quality education
SDG 5: Gender Equality	◆ Set up a center for women development ◆ POSH Committee ◆ Increase enrolment for Girl Students through scholarships	CASH Committee	◆ Phase 1 (6 Months): Center Establishment ◆ Phase 2 (1 Year): Program Launch	Empower women through dedicated support and programs
SDG 6: Clean Water and Sanitation	◆ Filter and store 1 lakh litre of rainwater ◆ Undertake groundwater recharge project ◆ Implement STP of 10 KLD capacity	Facilities Department	◆ Phase 1 (6 Months): Planning and Design ◆ Phase 2 (1-2 Years): Infrastructure Development ◆ Phase 3 (3 Years): Full Operation	Ensure sustainable management of water resources
SDG 7: Affordable and Clean Energy	◆ 50 KVA solar capacity installation ◆ Adopt energy-saving mechanisms (automated light sensors) ◆ Green Audits and Continuous Improvement	IQAC/ Facilities Department	◆ Phase 1 (6 Months): Feasibility Study ◆ Phase 2 (1 Year): Installation and Setup ◆ Phase 3 (2 Years): Full Operationalization	Promote energy efficiency and renewable energy
SDG 11: Sustainable Cities and Communities	◆ Get 3-4 battery-operated shuttles on campus ◆ Create EV charging infrastructure	Facilities Department	◆ Phase 1 (6 Months): Vendor Selection ◆ Phase 2 (1 Year): Implementation ◆ Phase 3 (2 Years): Full Operationalization	Promote sustainable transport and infrastructure

Table 13 >>>

Key Area	Deliverables	Owner	Timelines	Justification/Comments
SDG 13: Climate Action	- Plant 200 trees at MIET over the next 2 years - All new construction to be centrally air conditioned - Covered pathways - Increased green cover - Roof treatment to cool temperatures and reduce AC requirement	Facilities Department/ NSS Committee/ IQAC	- Phase 1 (6 Months): Plan and Initiate Planting - Phase 2 (1 Year): Tree Planting - Phase 3 (2 Years): Maintenance and Monitoring	Combat climate change through reforestation
SDG 14: Life Below Water	Water Bodies with Fish	Facilities Department/ NSS Committee	Phase 4 (3 years): Implementation	Holistic Campus Development
SDG 15: Life on Land	Tree Houses for Birds and Bushes for land birds in the region	Facilities Department/ NSS Committee	Phase 3 (2 Years): Implementation	Holistic Campus Development
SDG 16: Peace, Justice, and Strong Institutions	- Legal Aid Clinic - Community Projects - Digitization and Automation for Transparency	School of Law	Phase 1 to 3 (3 months to 2 years): Implementation	Social Impact
SDG 17: Partnerships for the Goals	MOUs and Linkages	Leadership Team	Phase 1 to 3 (3 months to 2 years): Implementation	Capacity and Capability Enhancement

Remarks

- Sustainability is a critical domain which is the focus of regulatory bodies, accreditation and ranking agencies and of interest to broader society. MIET needs to demonstrate leadership and impact in this area.
- The MIET campus offers ample opportunities to undertake innovative projects, which must be leveraged by mobilizing faculty and students in the region.
- Sustainability champions must be groomed and an interdisciplinary team must be created to drive this functional area for the institution.

This plan aligns MIET's initiatives with the UNSDGs, facilitating detailed planning and tracking of progress towards each goal.
